

Manitoba 4R Nutrient Stewardship Training

This interactive training session in 4R Nutrient Stewardship (Right Source @ Right Rate, Right Time, Right Place ®) is offered by Fertilizer Canada in collaboration with Manitoba Agriculture, Food and Rural Development (Manitoba Agriculture) and Keystone Agriculture Producers (KAP). The training course will cover 4R Nutrient Stewardship of nutrient management with a focus on nitrogen and phosphorus, Manitoba trial data, and the impact of nutrient stewardship on our environment and Lake Winnipeg.

Certified Crop Advisors (CCAs) are eligible to receive 5.5 Continuing Education Units (3.5 CEUs in Soil and Water, 2 CEUs in Nutrient Management).
